

LOVE POST

Dear Students,

Email and texting is fine, but there is something so beautiful and personal about a letter that someone has taken the time to write by hand. There is excitement in tearing an envelope and wonderful warmth in reading a handwritten letter.

Plus, a handwritten letter can become a cherished possession that you can treasure for many years to come. Handwritten letters from loved ones are saved, re-read, and carried about as they remind us of great moments in life.

You are invited to write a lovely letter and bring it sealed in an envelope to the library from 1st to 13th February. Bring the letter with your hopes, drop it in the letterbox and please do not forget to note down who this love note is for (name, surname, and class)!

Also please bring 2 HRK. WHY??? Because this year's Community and Service project is "Bloom, Not Boom". The project goal is to alert the students about the major issues of the mine threat and to raise funds for mine clearance in order to reduce mine suspected area in Croatia. Just by donating 2 HRK you can do a lot!

With love,

Teacher Ina
