

# Success at the Science Fair

## SCHOOL COOPERATIVE

April 24th, 2014

At the Science Fair, held on April 24th, our School Cooperative "That's it" presented a variety of products that have been diligently hand-made by the students within the School Cooperative Sections.

The students under the guidance of the Visual Arts teacher, Ms. Ivana Devernay Cimić were presenting and selling homemade crafts, soaps, badges, wooden candlesticks, decorative pillows and pillow cases, and attractively designed bags made out of recycled carrier bags.

Our students have once again proven their outstanding creative skills along with the dedication to our School Cooperative.
